Strategic Priorities

Serve as a resource and guide for member clinics, providing timely information, support, and education.

Promote and support clinics' efforts in delivering more accessible, higher value care, resulting in improved clinical processes and outcomes.

Fortify the association's ability to support and advocate for its member clinics and the patients they serve by exploring and pursuing capacity-building initiatives, including diversified funding.

Grow and leverage mutually beneficial relationships with regional, state, and national decision-makers, funders, providers, and other key partners to facilitate conditions and opportunities for member clinics to thrive.
